The Award

Name of award Master of Public Relations and Advertising

Detail

The Master of Public Relations and Advertising is a postgraduate degree consisting of 96 units of credit. It is taught in English and normally takes 2 years of full-time study, or the part-time equivalent. The program structure requires the successful completion of compulsory and elective advanced disciplinary coursework. This qualification is located at Level 9 of the Australian Qualifications Framework.
Depending on prior academic qualifications and professional experience, students commencing the program may be granted advanced standing for foundational coursework and complete the program in a shorter duration. For further details see the university's program guide at www.handbook.unsw.edu.au. Candidates for admission to the program typically require a Bachelor degree in a relevant discipline with a weighted average mark of 65%, or equivalent qualification.
The program provides graduates with a critical understanding of professional communication and technical skills in journalism, media writing and public relations.

Features

Students may complete either, or both, a professional practice pathway and a research pathway. The professional practice pathway applies media and journalism practice in different contexts and settings. Research pathway students undertake research investigation or an applied research project.

Pathway to further study

Graduates have access to a range of Graduate Certificates, Graduate Diplomas and Masters degrees. The program can serve as a pathway to higher degree research programs for students completing a significant research component.

Awarding Institution

The University of New South Wales (UNSW Sydney/UNSW Canberra) is a public university, established in 1949 under legislation passed by the Parliament of New South Wales. It is a member of The Group of Eight (Go8) coalition of Australian universities, intensive in research and comprehensive in general and professional education. The University is listed as an Australian University on the Tertiary Education Quality and Standards Agency's National Register of Higher Education Providers. The University's Commonwealth Register of Institutions and Courses for Overseas Students number is 00098G. For additional information about the University of New South Wales see www.unsw.edu.au.

Description of the Australian Higher Education System

Introduction

The Australian higher education system consists of self-governing public and private universities and higher education institutions that award higher education qualifications.

The Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools.

Australian Qualifications Framework

The AQF has 10 levels, each with defined criteria based on a taxonomy of learning outcomes. Higher education qualifications are placed between level 5 (the Diploma) and level 10 (the Doctoral Degree). The Bachelor Degree is at level 7. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of the knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type. The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.

The main AQF qualifications awarded by higher education institutions are Bachelor Degrees, Masters Degrees and Doctoral Degrees. There are also three qualifications at the sub-degree level: the Diploma, the Advanced Diploma and the Associate Degree. At the graduate level but below the Masters Degree are the Graduate Certificate and Graduate Diploma.

The Undergraduate Certificate, which was added to the AQF in 2020, is a higher education qualification that is not allocated to a single AQF level, but recognises completion of a short course, equivalent to half a year's study (0.5 Equivalent Full Time Study Load) toward an existing qualification at AQF level 5, 6 or 7.

Admission

Requirements for admission to particular awards are set by higher education institutions and provide a range of routes for entry and only admit those students considered to have potential to complete an award successfully.

Admission of school leavers to undergraduate awards is typically on the basis of the level of achievement in Year 12 secondary education, although some institutions and awards also use interviews, portfolios or demonstrated interest or aptitude. Most institutions also provide alternative entry provisions via bridging or foundation programs for mature age students or other special provisions, such as recognition of prior learning from previous study.

Admission to post-graduate awards is generally based on the level of achievement in previous higher education studies and in most cases, admission to PhD awards is based on high achievement in a research Masters Degree or in a Bachelor Degree with first class honours or second class honours division A.

Quality

Quality assurance and stringent approval requirements for higher education institutions ensure Australia has an international reputation for high quality education.

The Tertiary Education Quality and Standards Agency (TEQSA) was established on 30 July 2011 under the Tertiary Education Quality and Standards Agency Act 2011 (TEQSA Act). It is Australia's independent national quality assurance and regulatory agency for higher education. TEQSA has the powers to regulate university and non-university higher education providers and monitor quality against standards. Its purpose is to protect student interests and the reputation of Australia's higher education sector through a proportionate, risk-reflective approach to quality assurance that supports diversity, innovation and excellence.

From 29 January 2012 TEQSA assumed responsibility for registering and re-registering providers and accrediting and re-accrediting awards for higher education providers that do not have authority to accredit their own awards. At the time of registration, re-registration, accreditation and/or re-accreditation, TEQSA evaluates the performance of a higher education provider against the Higher Education Standards Framework (Threshold Standards) 2021. The framework specifies the minimum standards that all higher education providers must meet and continue to meet in order to remain registered.

TEQSA also monitors provider risks and performance and identifies good practice to support continuous improvement within the sector, guide sectoral quality enhancement and inform policy and research. The Higher Education Standards Panel (HESP) is an expert independent statutory advisory body established under the TEQSA Act. The HESP is responsible for advising the Minister for Education and TEQSA on the development, monitoring and interpretation of the Threshold Standards.

All higher education institutions receiving Australian Government financial support must also meet the quality and accountability requirements set out in the Higher Education Support Act 2003.

The Australian Government uses a range of tools to measure and monitor the quality of outcomes, while the interests of international students are protected by the Education Services for Overseas Students Act 2000 and the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS), providing tuition assurance and ensuring that institutions listed on CRICOS meet defined minimum standards.
